S. W. ECCLES IS AGAIN PROMOTED

Three Former Salt Lakers Named On New Steamship Line.

SMELTER COMPANY MOVE.

Organizes Transportation Service Between North and South America F. W. Hills and H. B. Tooker.

On Saturday afternoon the "News" received official circulars from the headquarters of the American Smelting and Refining company in New York and signed by President S. R. Guggenheim that will be read with interest by all Salt Lakers who have had the privilege of the acquaintance of S. W. Eccles, F. W. Hills and H. B. Tooker, formerly of this city.

The first circular announces the incorporation of the American Smelters' Steamship company which has been duly incorporated and organized for the purpose of transacting a general business between New York, Galveston and other ports in the United States and ports in Mexico, South America and elsewhere. It controls a complete line of steamships. Transportation matters as well as arrangements for the interchange of traffic with other steamship and railroad companies will be in the hands of Mr. S. W. Eccles, vice president and general manager.

the second circular gives the names of the officers of the new company, among which are the three former Sait Lakers and Oregon Short Line of-ficials. The appointments went into effect on Tuesday last. The roster is: S. W. Eccles, vice president and general manger. Isaac Guggenheim, treasurer.

W. Hills, comptroller. H. B. Tooker, secretary, K. MacGowan, manager and pur-

chasing agent.
Mr. Eccles first made his name as traffic manager of the Oregon Short Line and was, until this last appointment went into effect, traffic manager the American Smelting and Refining company only. Mr. Hills was audiof the Oregon Short Line, but resigned to go to New York as comp-troller of the big smelter company. Harry B. Tooker is well known in local railroad circles as the private secretary to S. W. Eccles.

In addition to the local interest attached to the incorporation of the new steamship company this move means the further development of traffic between North and South America. Herethe smelter company has been in the habit of chartering tramp steamers to transport the ores between Chill Brazil and Mexico. From now on it will have its own line of steamers to handle the big shipments that have been increasing in volume month by month until now the tonnage exceeds

400,000 mark annually. Salt Lake should feel proud of the selection of such men to be at the head of affairs. During the past two years Utah has been heavily drawn upon for men to control the affairs of big eastern concerns. There are and others growing up. but in the meantime the good wishe of Salt Lakers generally are extended to Messrs. Eccles, Hills and Tooker in their new undertaking. Numerous congratulations are now on their way from Salt Lake to New York.

SPECULATION IN 'FRISCO. Harriman, Clark and Huntington Scheduled to Meet This Week.

San Francisco, April 26.-The coming week will witness an unusually large representation of the big overland railroads in this city. President E. H. Har-riman of the Southern Pacific and President Horace G. Burt of the Union Pacific are expected Tuesday or Wednesday, and by that time a large number of prominent officers of oth lines, many of whom have been attending the Portland meeting, will have

The coming of Presidents Harriman and Burt, coupled with the announce-ment from New York that Senator Clark of the Salt Lake road is to follow them westward, has started much speculation among local railroad men as to whether there may not be some-thing significant in their visit. While Senator Clark still persists that he has no close business relations with Harriman in the Salt Lake deal, wherein part of the Oregon Short Line has recently become his property, or that the Southern Pacific magnate is working with him in the attempt to force H. E. Huntleden to chanden his plane for Huntington to abandon his plans for extending his southern California electric lines into the steam railroad terri-tory, it is the general opinion that the contrary is the case, and a rumor has been in circulation that Harriman and lark have been trying to induce untington to consider a proposition for a compromise of their differences.

Caldwell on the Decision.

New York, April 27.—Mr. B. D. Caldwell, vice president of the Delaware, Lackawanna & Western railway, is stopping at the Bristol hotel in this cables the Berlin correspondent of the Herald. In an interview he is quoted as saying that the recent Northern Securities merger decision would doubtless stand, despite the appeal, though he considered the Sherman anti-trust law inequitable. He believes that the decision will affect other leading eastern trunk lines.

OPENHEIM'S BODY RECOVERED Boatman Who Found it Will Get

Five Thousand Dollars Reward. New York, April 28.—The body of Adolph E. Openheim, the weathy merchant who is believed to have jumped into Harlem river from High bridge on March 39, was found within a short distance of the bridge today by a boatman, who will receive a reward of \$5,000. Ever since Mr. Openheim's disappearance a constant search of the waters of the Harlem river has been kept up. A steam launch chartered by the missing man's family patrolled the river night and day, and scores of boatmen, stimulated by the offer of \$5,000 for the recovery of the body, swept the river bed with grappling irons.

New York, April 27 .- Two thousand persons are destitute and camping on the foot hills near Pisagua in the providence of Tarapoca, as a result of the fire which destroyed the town, says a Herald dispatch from Valparaiso, Chile Eighteen blocks of houses were burned, including the banks, churches schools, prisons, cable and telegraph barracks and houses. More than two-thirds of the port is in ruins. No casualties have been reported.

Disorders at Kronstadt, Russia.

Berlin, April 26.-The Lokalanzeiger as published details of the recent dis orders at Kronstadt, Russia, which be-gan in a brawl between troops and marines, and during which it was said paper says the trouble developed into a regular riot in which 12,000 persons took The rioters tore up paving tones and wrecked houses.

An attempt to quell the disorder with the fire brigade failed the fire apparatus being destroyed by the infuriated mob. Several police officers were wounded. Finally Admiral Layroff in command of the fortress at Kronstadt, arrived on the scene with a party of armed men, who fired point-blank volleys at the rioters and restored order.

Gen. Tyner's Successor.

Washington, April 26.—Postmaster-General Payne had a talk witth Atty. Knox today about a suitable man to put in charge of the legal division of the postoffice department. As Gen. Ty-ner, the assistant attorney-general has been removed, and Mr. Christiancy, the officer temporarily in charge, is to remain away pending the investigation in the place, at least temporarily. The question of the selection of some one to succeed Gen. Tyner permanently will be taken up by Postmaster-General Payne very soon.

Trusted Clerk a Thief.

New York, April 26.-William J. Pick stock clerk for a downtown jewelry firm, was arrested today charged with tealing \$20,000 worth of jewelry fro his employers during the past four years. Pick's defalcations were discovered recently when he absented himself from the office. He and his wife were traced to Pittsburg, where the latter's parents live. Pick consented to return New York, and was arrested on his arrival here.

CHAMPION IS **COMING HERE**

"Young Corbett" Will Reach Salt Lake on Saturday.

HIS ADVANCE MAN ARRIVES

Professes Great Surprise That De-Coursey Match Has Been Called

Off and Knows No Beason.

"Young Corbett." featherweight champion pugilist of the world, is scheduled to reach Salt Lake Saturday, according to the statements of A. B. McDonald, advance man for the little Denver fighter, McDonald is now here making preparations for the champion, and it is hard to tell just at this time what will be done toward securing a match for "Corbett." McDonald said he knew nothing of the new turn of affairs in calling off the De Coursey match and says he cannot understand why it was done. He also says he knew nothing of the scheme to substitute Tommy Jacobs for De Coursey and he has

wired Harry Pollack for instructions. wheel Harry Pollack for instructions.

It has been alleged that Jacobs had something to do with the calling off of the bout referred to, but Tommy has come forward in a plain statement in which he declares that he had nothing whatever to do with it, except to remark that he would like a chance at Corbett in a sixround bout. Tommy does not say that he would stand any show with the champion in a match, but he believes he is able to stay six rounds and is willing to make the attempt. He says that so far as De Coursey is concerned, or any other feath-Coursey's concerned, or any other feath-erweight in the business, they all look alike to the champion. In spite of ali that has been said and done, the fight fans would like to see the little Denver chap in action, and judging from the talk about town, they would not be greatly disappointed if Jacobs did take De Cour-sey's place.

"YOUNG CORBETT" WARNED. May Have Something to Do With De Coursey Match.

Coursey Match.

Deals are being fixed up all along the route for the purpose of trying to land Young Corbett in the same kind of a hele that Champion Jeffries fell into when he picked up Jack Monroe in Butte, says the Denver Times. Corbett is traveling over practically the same line of march that Jeffries followed and is being induced to take on unknowns for short trials. It is being demonstrated to him that if he does this he will increase the receipts of the show and his end of the deal. The other night he failed to stop a Chicago boy in four rounds. Before this an effort was made to put him on against Rufe Turner for four rounds.

It is said that the men who were back of the deal offered the manager of the house where the pugilist was showing \$250 if he could arrange the bout, but Corbett declined on the ground that he was not in condition for a hard fight and would take no chances. The report also states that if Turner had secured the bout it was his intention of trying his best to knockethe champion out. The story leaked

The story leaked out, and a good crowd of sports attended the show, expecting to see the fun. Corbett has signed to meet Billy DeCoursey in Salt Lake City in a four-round bout. There was a time when DeCoursey was considered one of the best light men on the Pacific coast, and he will be right when he takes on Corbett in Salt Lake. The champion is un against a dangerous. The champion is up against a dangerous game when he tackles these men who are planted around the country waiting for him. TROUBLE FOR GIMLIN.

May Not be Able to Secure Lay Off To Play Ball.

There seems to be a little trouble ahead for "Pa" Gimlin of Ogden. He is a conductor on the Southern Pacific and a member of the Order of Railway Conductors, and as the order does not relish the idea of conductors securing a long lay off there is some question as to whether Gimlin will be able to play ball this year. Gimlin was not able to come to Salt Lake today as he had to take his train out and William Binford was appointed to confer with the Salt Lake magnates about placing the forfeit and arranging a schedule.

He bet \$1,000 on Royal in the first race against \$2,500 and lost by a length. There was no very strong information out on the second race and he waited for the third, betting \$500 on Past straight and \$500 place. She ran third, and he was \$2,000 to the bad. In the fourth race he backed the Walden stable for \$1,000 at 7 to 5, and as a protector placed \$500 on Knobhampton to show.

Neither Knobhampton nor either of the Walden filles finished in the money and Mr. Weaver was \$5,500 out of pocket. Another \$1,000 on Sunanto in the fifth was lost at the barrier and it looked as though nis Saturday experience was about to be repeated, when Sacchrometer came along and saved him. board at the next meeting.

Mr. George Naylor of this city showed the "News" a number of ugly looking worms which he discovered killing his cherry and peach trees. He noticed that . his orchard trees were failing for some unaccountable reson, and upon examining them found dead spots of bark on the trunks of the trees. Upon digging out the dead spots he found a number of worms known as the peach tree borers. He dug out from some trees as many as a dozen worms, and these were de-stroying the trees. It would be well for orchardists to examine their stone fruit trees carefully and dig out the borers The insects will be found mostly at the crown of the
